| VP - Mr. Sun | 1.4 |
| Major shareholder Total | 51.2 |

- · Chairman&CEO: Simon Tsai
- •30 years in the metalworking industry
- •18 years with Intai
- **•BS** of National Taiwan **University of Science** and Technology

- GM: John Chung
- •40 years in the metalworking industry
- •25 years with Intai
- ·BS of Air Force Institute of Technology (Taiwan)

- ·CSO: Paul Lin
- Founder of Intai
- •40 years in the metalworking industry
- •BS from National Taipei University of **Technology**

- ·CFO: Lily Su •19 years with Intai
- EMBA of **National Chung Hsing University**

- · VP of Medical BU: Mark Wu
- 11 years in the metalworking and Bike assembly industry
- 8 years with Intai
- · BS of National **Chung Hsing** University of Soil and Environmental Science

- · VP of Fastener BU: · VP of Switch BU: Patrick Lin
- · 30 years in the metalworking industry
- 25 years with Intai
- MBA of Soochow **University China**

- Richard Sun
- Director of Switch **Dept at Teledyne**
- · 40 years in the microwave switches industry
- 10 years with Intai
- · MS of University of California

Intai products

Applications

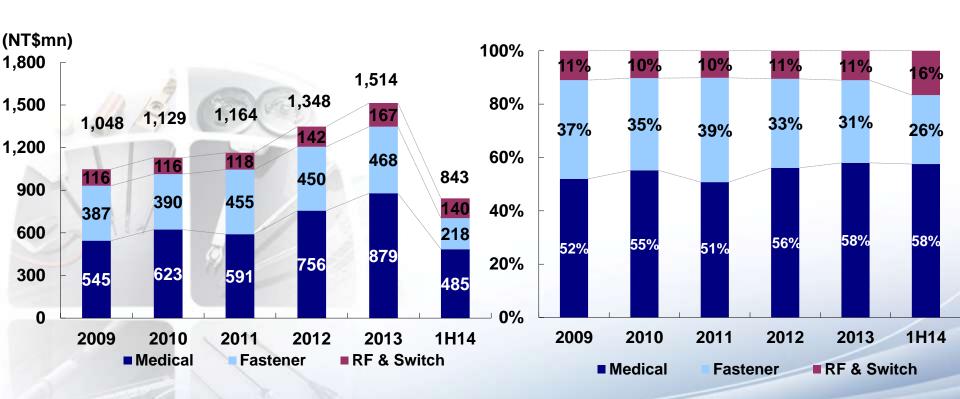

Total sales by product category

Total sales breakdown by product category

Intai's competitive advantages

- Decades of experience combining capabilities across medical and metalworking sectors and acquired international certifications
- Client relationships spanning over 20 years
- Innovative and non-conventional metal-working techniques to produce complex precision shapes
- One-third in-house developed tools and equipment
- R&D capabilities with early-stage product development with customers
- Capacity optimization combining high mix, low volume with higher volume, mass value-added products
- Co-development with Industrial Technology Research Institute (ITRI)

Vision and plan

OEM

- Increase market share in our major client
- Establish relationship with other subsidiaries within our major client's group

ODM

- Explore more opportunities in product co-design/co-development with clients based on our past successful experience
- Further leverage current capability in innovative product design and development

OBM

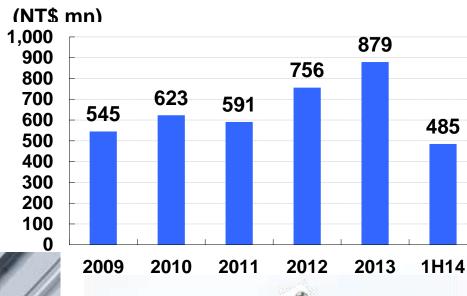

- Continue to develop own-brand dental and orthopedic implants launched in 2013
- Develop presence in China/SE Asia markets within 3 years

1.Medical component/assembly

- Major metal components supplier for global leading endoscopic surgery instrument brand (half of Intai's 2012 total sales)
- One of few qualified suppliers in Asia, with most peers in the US
- Also supplier of orthopedic/dental implants and other medical components
- Over 35% blended gross margin in 2013

Intai sales in Medical component/ assembly

2.Precision Fasteners

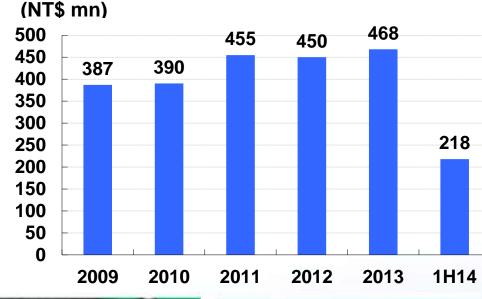

- Standard and customized fasteners with applications in automotive, construction, aerospace, furniture industries and etc...
- Over 20% blended gross margin in 2013
- Focus on high value-added metal components

Intai sales in Precision Fasteners

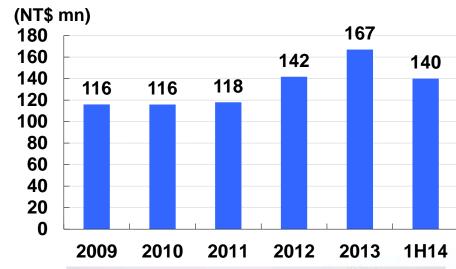

3.RF & Microwave Switches

- Customized and niche radio frequency and microwave switches with applications in automobile, wireless telecommunication (ex: aviation, mobile phone base station, military...etc)
- Major clients are top 2 players in the world
- Over 40% blended gross margin in 2013
- Ramped new capacity in 2Q14 and has entered pilot mass production

Intai sales in RF/ Microwave Switches

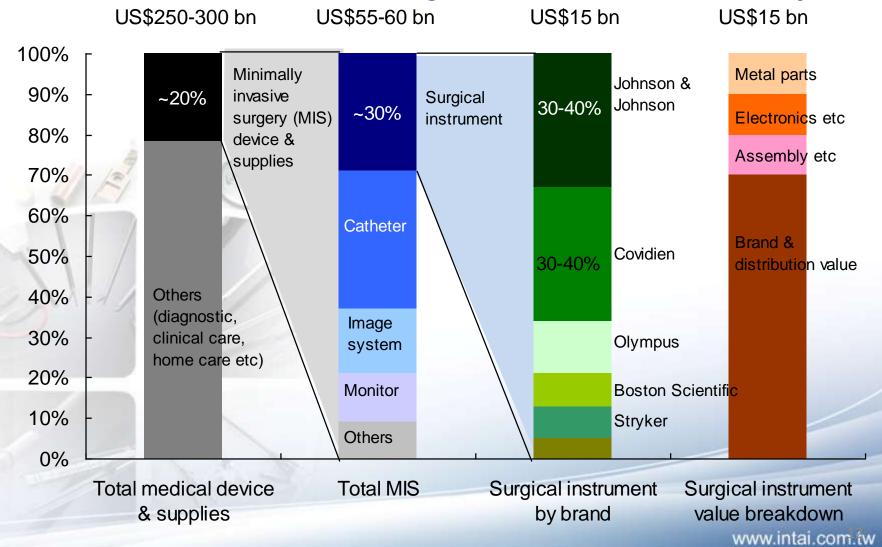

Intai's addressable market in the global medical device industry

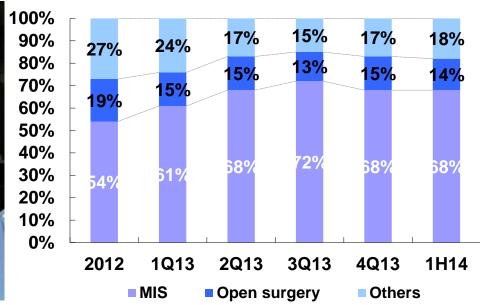

Global trend from open surgery to Minimally Invasive Surgery (MIS)

Intai Medical sales breakdown by application

Smaller incision

Less complications

Reduced pain

Faster recovery

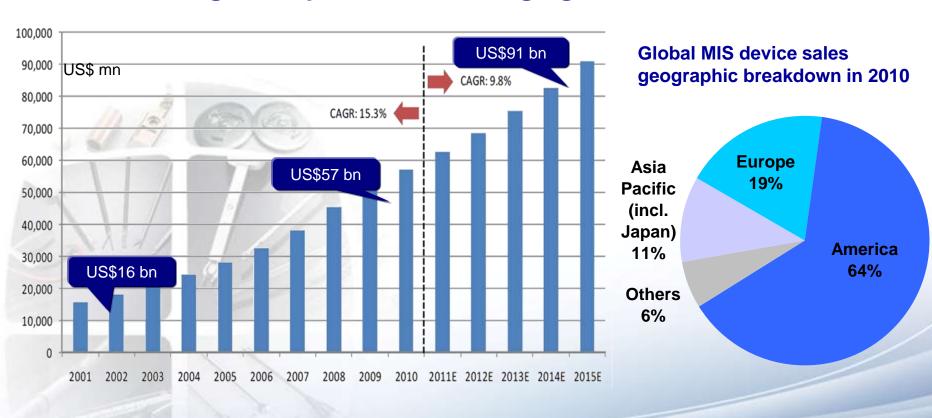

Increased safety

Shorter hospital stay

Cost saving

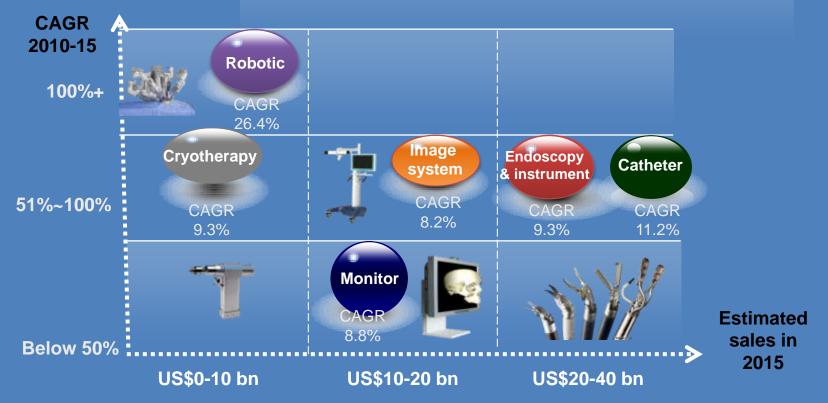

Global MIS device market to grow 10% annually, with greater potential in emerging Asia

Source: MarketsandMarkets, MIRDC

Global MIS device market: Value and growth by segment

- •Abdominal (gynecology + gastroenterology) is the largest MIS sector (10.8 million cases or 35% share) in 2010
- •Orthopedics MIS had 4 million cases in 2010 with strong momentum

Otorhinolaryngology Thoracic cavity Cardiology Abdominal cavity Gynecology Gastroenterology Neurosurgery Orthopedics Cosmetic Surgery

US\$14.5 bn market in 2011 with 6-9% projected CAGR through 2016

Unit: US\$ mn

| Products | 2009 | 2010 | 2011 | 2016 | CAGR% (2011-2016) |

Future projects

Financial highlights

Projects next 2 years

Own-brand dental implants

- Launched own-brand Royal Dent for dental implant products in 2013, with positive feedback from clinical sales in Taiwan
- Received Taiwan FDA, US FDA, and CE approvals.
- Expect to receive Singapore HSA in 4Q14 and China FDA in 1Q15

Orthopedic implants

- 500,000 patients receive spine fusion surgery in the US every year
- MIS orthopedic surgery contributes to reduction of incision and recovery time
- Intai manufactures related components including screws, cage, fixation system.

Future projects

Financial highlights

Longer-term projects

Annulus Repair device

- Annulus Repair Device for Non-Fusion Spinal Reconstruction : Co-development with Taiwan's Industrial Technology Research Institute
- Removal of unwanted tissues and stitching in early treatment, with minimal scarring
- Completed animal testing in 3Q14 and has entered IRB for clinical trial

Thermal Injector Fusion

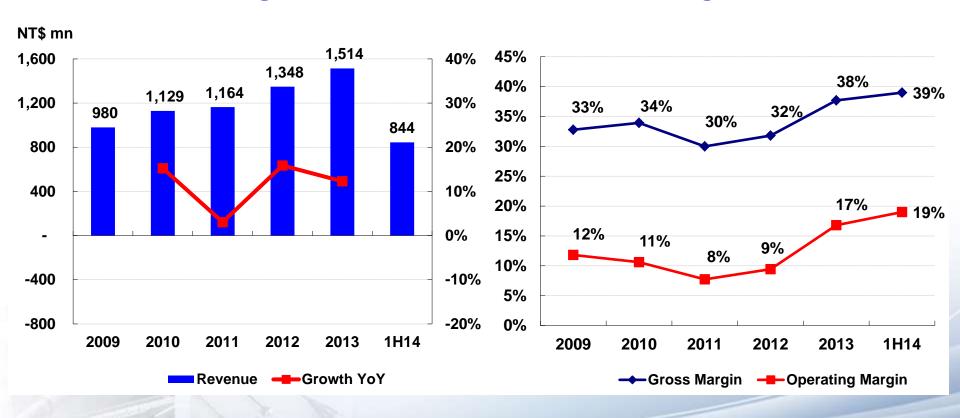

- The thermal injectable bone graft for spinal fusion is injected and spread out evenly in lumbar disc, while in traditional fusion surgery it's difficult to confirm whether the fusion is placed optimally
- The wound size of the thermal injectable fusion is under 1cm, while wound size of traditional MIS ranges 3-5 cm
- To enter animal testing in 4Q14
